

“Access to Healthy Food?”

Nutrition 500 Seminar, Winter 2013

Thursdays, 12:30-1:20, HST 739

“Access to healthy food” is now a common phrase in public health and popular media. This seminar series will examine dimensions of food access and opportunities to improve healthy food access. At the end of the seminar students will be able to:

- Define dimensions of food access
- Consider the role of food access as a determinant of food choice
- Describe environmental, systems and policy approaches to improving food access
- Develop and explain a concept model for healthy food access

Date	Topic	Speaker
1/10	Conceptualizing “Access to Healthy Foods”	Donna B. Johnson, RD, PhD, Associate Professor, Nutritional Sciences & Emilee Quinn, MPH, CPHN*
